

# Sheep Hoof Trimming Photo Guide

Celeste Morris, DVM

Veterinary Health Center  
University of Missouri

**START**

Grasp hoof firmly and  
clean off excess debris

Long toes

Trim long toe  
length if necessary

Check  
toe  
length

May be able to  
continue trimming toe

Stop trimming toe - risk of  
bleeding/infection

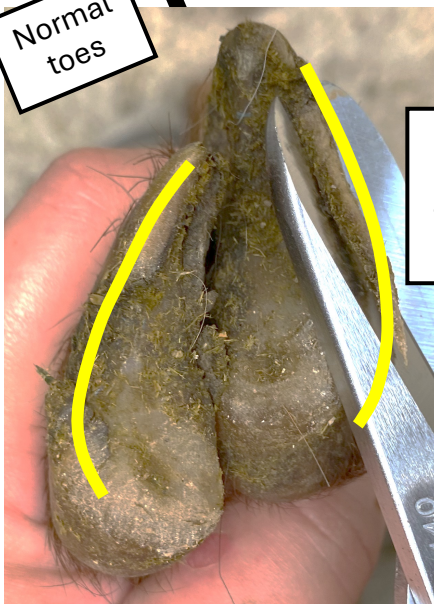

Flatten out foot, do not  
leave square toe

Go back and  
forth as needed

Normal  
toes

Trim hoof wall  
that folds over  
the sole – repeat  
as needed

End with:

- Flat sole
- Even white line
- Correct angle for weight bearing
- Even weight bearing on both sides

**END**
