

BREEDING CERTIFICATE

DIRECTIONS

If you were not the owner of a ram that you used for breeding and you want to register offspring from the mating, you must complete a breeding certificate. Both the owner of the ewe(s) AND the owner of the ram(s) at the time of breeding must sign the certificate. If multiple rams were used from one owner, only one breeding certificate can be used. If rams from multiple owners were used, please submit a Breeding Certificate for each ram.

Provide ram identification information, ewe identification information and the dates the ewe(s) were exposed to the ram(s).

OWNER OF THE RAM(S) AT MATING

Flock ID _____ Flock Name _____

Contact Name _____ Contact Phone _____ Email _____

Address _____ City _____ State _____ Zip _____

Signature of Ram Owner _____ Date _____
